“Working with industry towards a profitable and successful future”

## What do Hayward Miller offer?

Best described as an “outsourced sales company”.

We offer three main Elements

- Market Research (mr)
- Telemarketing (tm)
- Business Development (bd)

Together these are known as Managed Services (ms) – a complete sales solution package.

We work on behalf of our clients for a set number of days per month. These numbers of days are based from the goals and targets your company wants to achieve.

As backing support, Hayward Miller effectively becomes an extension of your sales team, utilising your email addresses and business cards.

We work on the basis of a day rate. Once you have agreed the objectives, we arrange a contract to suit your budget and requirements. Every client is treated individually – your aims are listened to thoroughly and a bespoke package is created, specific to your needs.

## Market Research

Market Research helps discover new areas of growth and advises how best to break into new markets. It can also assist in understanding your customer intelligence, assessing your strengths and weaknesses whilst sourcing potential customers.

We offer:

- Database Generation
- Market Strategy
- Competitor Analysis
- Research Interviews
- Questionnaires
- Focus Groups
- Contract Opportunity Identification

## Telemarketing

The Telemarketing team loves speaking to people – they make the calls you hate! Telemarketing is used to generate initial contact, follow up on leads and raise brand awareness with your potential customers. We provide:

- Lead Generation
- Appointment Making
- Telemarketing Scripts
- Brand Exposure
- Customer Support
- Upselling
